

2013/PPWE/004 Agenda Item: 9

# The Development of Individual Action Plan

Purpose: Information Submitted by: Chinese Taipei

Third Policy Partnership on Women and the Economy Meeting Bali, Indonesia 7 September 2013

### Women and the Economy Individual Action Plan

#### Objective

In order to achieve the sustainable and inclusive growth objectives and include women as an economic growth strategy, APEC member economies should implement policies and programs called for by the APEC leadership, including the recommendations in San Francisco declaration.

## Guidelines

Recognising the untapped talent of women, each APEC economy will:

(a) Establish or continue programs and policies which foster women's economic empowerment.

- (b) Note the important role the private sector plays in providing insight for effective programs and policies, and
- (c) Co-operate with and enhance the capability of other APEC economies to implement.

#### **Collective Actions**

APEC Economies may take Collective Actions relating to women and the economy in areas to be agreed.

Area	Programs and policies being implemented	Programs and policies to be implemented	Progress made in 2013
Access to Capital	<ol> <li>The Act of Assistance for Family in Hardship was implemented in 2000 to provide single parents, unwed mothers, and families in harsh situations with emergency assistance for livelihood, child living and education allowances, medical allowance, child nursery allowance, legal counsel allowance, and allowances for business start-up loans. Allowances or benefits issued under the Act shall not be used in distrainment, offset, or guarantee of any form, to maintain the basic livelihood of families in hardship. During 2009-2012, a total of US\$61.38 billion, including 87.59% of the amount for women, was issued to support a total of 687,379 people, of which 85.40% were women.</li> </ol>		_

		— · · · · · · · · · · · · · · · · · · ·		1
	2.	To help women who need to support a family independently	_	_
		but without guaranty of any kind to apply for business start-up		
		loans more easily, related preferential loans (such as Micro-		
		Business Start-up Phoenix Loan and Young Entrepreneur		
		Loans) have been designed. Also, to provide counterparty		
		guarantee for related loans and mid-term operating funds		
		required by female entrepreneurs, a government credit		
		guarantee fund has been established. During 2011-2012, a		
		total of 1,067 applications applying for the guarantee of		
		Business Start-up Phoenix Loans and Young Entrepreneur		
		Loans were received. A total of US\$0.2008 billion in guarantee		
		was provided for a total financing amount of US\$0.234 billion.		
		From 2012 to the end of May 2013, a total amount of		
		US\$1.196 billion of loan guarantee was provided for a total		
		amount of mid-term operating funds required by female		
		entrepreneurs at US\$1.5004 billion.		
	3.	A series of business start-up assistance measures for		
		indigenous peoples have been planned and designed.	_	—
		Financial consultants are recruited to assist indigenous		
		entrepreneurs in applying for loans, extend assistance,		
		interview borrowers, and establish financial and accounting		
		systems. In 2012, a total of US\$7.5165 million was lent to		
		indigenous female entrepreneurs.		
	4.	To raise the approval rate of loans for women SME owners of		
		banks, the Financial Supervisory Commission (FSC, the top	—	—
		supervisor of financial institutions in our economy) has included		
		the approval rate of loans for women SME owners as a credit		
		for the new branch establishment assessment of banks.		
Access to	1.	The Female Innovative Entrepreneurship Project was		Three female entrepreneurship forums and
Markets		launched and related female entrepreneurship education	—	sharing activities were held in 2013 to share
		measures were implemented to promote female		experiences in entrepreneurship networking
		entrepreneurship, encourage women to achieve economic		expansion and practice and to promote
		independence and competitiveness, build female		business matching. A total of 300 female
		entrepreneurship consultation mechanisms, strengthen female		entrepreneurs participated in these events.
		entrepreneurship networking, assist women in overcoming		
		adversities in entrepreneurship and operations, and create a		
		friendly environment for female entrepreneurship. By teaming		
		up with civilian NGO resources, we hope an entrepreneurship		
		mentoring mechanism can be set up to help women from mid-		
		income and low-income families and social vulnerable groups		
		to escape poverty. The annual budget for this project is		
		to escape poverty. The annual budget for this project is		

<ol> <li>We began establishing the Chinese Taipei Women's         <ul> <li>Business Network in 2007 to feature enterprises established             by women and their products and publish news on women             successfully expanding sales to impress businesses at home             and abroad with the image of Chinese Taipei female             entrepreneurs. In 2013, the product information of 1,108             female entrepreneurs was displayed. Since 2007, the website             has attracted 104.333 visitors.</li> </ul> </li> <li>Publicity is implemented over the B2B online shopping site         <ul>             in provide all count, this site allows buyers to directly             shop online with PayPal or credit cards) constructed in 2013. A             quick link is added to the Chinese Taipei Women's Business             Network. This website provides another marketing channel for             female entrepreneurs was eablighayed on iDealEZ.</ul></li> <li>In 2012, a Women's Marketplace was added to Go Fun, a         <ul>             website selling local products. The Marketplace provides a             channel for women micro business entrepreneurs and             indigenous and rural women to sell their products and increase             exposure and opportunities. With website viewership of             942,419 people, Go Fun displays 750 items from 435 units.</ul></li> <li>To help rural women to improve their financial situation, the         Council of Agriculture began helping rural women to develop         <ul>             handicraft products on belped them establish             physical (e.g. handicraft promotion centers) and writual             (websites) sales channels. In 2013, the council helped 7             farmers' associations to innovate and announce 60 new             handicraft products and announce 60 new             handicraft products and announce 60 new             handicraft products and announce 60 new</ul></li></ol>		US\$336,000.		
Busines's Network in 2007 to feature enterprises established by women and their products and publish news on women successfully expanding sales to impress businesses at home and abroad with the image of Chinese Taipei female entrepreneurs. In 2013, the product information of 1,108 female entrepreneurs was displayed. Since 2007, the website has attracted 104,333 visitors.         3.       Publicity is implemented over the B2B online shopping site iDealEZ (www.idealez.com, this site allows buyers to directly shop online with PayPal or credit cards) constructed in 2013. A quick link is added to the Chinese Taipei Women's Business Network. This website provides another marketing channel for female entrepreneurs to sell products. By May 2013, 48 female entrepreneurs have their products displayed on iDealEZ.         4.       In 2012, a Women's Marketplace was added to Go Fun, a website selling local products. The Marketplace provides a channel for women to sell their products and increase exposure and opportunities. With website viewership of 942,419 people, Go Fun displays 750 times from 435 units.         5.       To help rural women to sell their products and increase exposure and opportunities. With website viewership of 942,419 people, Go Fun displays 750 times from 435 units.         5.       To help rural women to improve their financial situation, the Council of Agriculture began helping rural women to develop handicraft products integrating rural culture and traditional handicraft promotion centers) and virtual (websites) sales channels. In 2013, the council labs helped them establish physical (e.g. handicraft promotion centers) and virtual (website) false schances. In 2014, the council helped 7 farmers' associations to innovate and announce 60 new handicraft products and organize the Rural Women handicraft products and organize the promote

6. The Employment Empowerment Plan and Multiple				
Employment Promotion Program were implemented to provide			—	-
women with job opportunities and help indigenous women to				
develop green products or organic agricultural products. A total				
of 5,255 women enrolled in the plan and program and 159				
indigenous women were served.				
7. The Indigenous Peoples Tourism Promotion Plan was	<del> </del>			
implemented. Professional teams were entrusted to provide			—	_

	1			1
		consultation services for individual industries and help indigenous tribes to implement independent management, build local tourism environments, and develop a tribe-specific tourism industry, so as to create job opportunities for indigenous women. In 2013, the plan successfully helped 354 indigenous women to find jobs.		
Capacity and Skills Building	1.	Free entrepreneurship training courses were given under the <b>Micro-Business Startup Phoenix Program</b> to teach female entrepreneurs operational skills for different stages of operation. E-learning courses were also opened for female entrepreneurs to learn web marketing and online shop operation, so as to provide them with more channels for starting a business and marketing products. Combining with supportive measures such as successful enterprise resources and business start-up consultation, opportunities for exchange and practice are provided for creative entrepreneurs to enhance the success rate of entrepreneurship. In 2012, a total of 13,792 people participated in related entrepreneurship training courses, of which 9,163 were women.		
	2.	The Access to Entrepreneurship for Women e-learning course and the Outstanding Professional Executive training course were opened at SME Online University. During 2007-2012, a total of 894 people participated in these courses, including 243 women. Courses for women business owners, practical entrepreneurship, and business operations were provided to help female entrepreneurs to develop related competencies.	_	In 2013, 17,157 women signed up to the SME Online University.
	3.	The <b>Hakka Industry Innovation and Incubation Program</b> was implemented by the public sector in collaboration with universities and colleges or industry consultation organizations. Hakka industry innovation and incubation centers were established in Hakka culture development areas to focus on cultivating the basic business start-up capability of Hakka youth and helping businesses to innovate and develop characteristic products. Individual consultation services were arranged for trainees interested in entrepreneurship. Courses were added to enhance Hakka industrial competitiveness and encourage Hakka to start up business in their hometowns, so as to promote sustainable development of Hakka communities.		In 2013, the 2nd Hakka Industry Innovation and Incubation Training Course was completed in two areas. Of the total of 72 trainees, 42 were women, commanding 58.3%. The course was opened to help Hakka youth to return to and start up business in Hakka communities, create new momentum for economic transformation, and improve the basic business start-up capability of trainees, so as to set up examples of successful female entrepreneurship and spread training effectiveness.

10. Related assistance programs were also implemented. Senior		The APEC Digital Opportunity Center (ADOC) Project was implemented in August 2004 to integrate government and private enterprise resources to assist women and social vulnerable groups in remote areas worldwide to bridge the digital divide (partners included The UP Center for Women's Studies in the Philippines, Center for Women and Development in Vietnam, and Mujer y Sociedad in Peru).		From August 2004 to 2013, ADOC provided training for 447, 326 people, where 221,789 were women, accounting for 49.6%.

		and outstanding IT company/ industry female employees were asked to mentor female college students that were participating in the student practice IT work experience, so as to encourage these students to enter into the IT industry, upon graduation from college. In 2012, we provided assistance for 1,681 college females.		
	11.	To facilitate female research fellows to take charge of the application and approval of academic research projects, related guidelines were amended to extend the deadline of academic publications for female research fellows who have taken maternity leave or asked for parental leave; and to extend the age limit of candidates with parenting history, so as to provide female research fellows with fair opportunities. In 2012, there were 467 applications for publication extension due to maternity leave or parental leave.	_	_
	12.	In 2013, the three-year project Innovation for Women and Economic Development: Facilitating Women's Livelihood Development and Resilience with ICTs (2013-2015) was implemented with APEC funding. Surveys and case study will be applied to investigate how to effectively help women develop livelihoods with ICT, create more opportunities for women to engage in business and trade, and develop an effective and sustainable livelihood development model with ICT for women from various socioeconomic status. The total project budget was US\$951,010.		The 2013 APEC Conference: Innovation and ICT for Women Business and the 1st Public- Private Partnership Network Meeting was held on June 28-29 in Taipei . A total of 171 participants from 12 APEC economies, including Indonesia and the USA, attended the conference where keynote speeches, best practices sharing, and network conference exchanges were implemented by domestic and international scholars, experts, and female entrepreneurs.
Women's Leadership	1.	The Female Innovative Entrepreneurship Project was implemented to select outstanding female entrepreneurs, develop female entrepreneurship highlights, and set examples of successful female entrepreneurship. In 2012, five business media meetings were organized, and venture capital managers were invited as instructors to recommend the 30 outstanding female entrepreneurs of the project to venture capital and angel investors, so as to strive for investment opportunities.	_	
	2.	Each year outstanding model micro-businesses are rated and commended under the <b>Micro-Business Start-up Phoenix</b> <b>Program</b> to encourage micro business entrepreneurship. Six ratings were implemented during 2007-2012, and 60 model micro businesses were selected. Most model micro businesses	_	_

 1			
	fall in the wholesale and retail industries (60%) and		
	accommodation and food services industries (18.3%). In terms		
	of sex, 45 owners of model micro businesses are female,		
	accounting for 75% of the total.		
3.	After the amendment made to the Corporate	_	_
	Governance Best-Practice Principles for TWSE/GTSM		
	Listed Companies on 11 March 2013, members of the board		
	of directors shall pay extra attention to gender equality and be		
	equipped with the knowledge, and skills required for carrying		
	out their duties. This amendment has brought more chances		
	for female to enter the decision-making bodies of listed		
	companies.		
4.	The Promoting Gender Mainstreaming Award was held in 2003		By April 2013, 92.7% of government
	to encourage government agencies to give promotions to	—	agencies, 34.90% of the directors of state
	outstanding female public servants. The "one-third staff for		businesses, and 73.47% of the supervisors of
	each sex" principle has been promoted continuously.		state businesses comply with the "one-third
	Continuous follow-up and review of the compliance of		staff for each sex" principle.
	government agencies and the board of directors of state		
	businesses is performed.		
5.	The Female Trade Union Cadre Training Camp was		
0.	organized since 2008. One camp was organized in 2012 and	—	_
	attracted 95 participants. Courses include communication and		
	leadership skills promotion for female cadres, group		
	negotiation ability and improvement of unfair labor practice		
	decision mechanism, and competency for labor-management		
	dispute settlement. Female workplace health management and		
	hazard prevention is also included in the training.		
6.	The Women in Science and Technology Mentor Program		
0.	was implemented to accompany and support female students	—	—
	enrolling to science and technology related disciplines to finish		
	their studies and develop related competencies through the		
	mentor system, so as to encourage them to enter the science		
7	and technology job market that has been dominated by males.		
7.	The <b>SME Female Leader Workshop</b> was held to improve the	_	-
	leadership potential of female leaders. Since 2011 a total of		
	five workshops have been held for 127 higher-level female		
L	leaders.		
8.	To help families to solve child care and disabled elderly long-	_	_
	term care problems for women to re-enter the job market and		
	reduce family financial burdens, the Community Child Care		
	System and Ten-Year Long-term Care Plan was		
 •			

	implemented to provide accessible and quality child care and		
	adult care services. The plan also creates a large amount of		
	well-paid and protected job opportunities in care and welfare		
	services for women to work in their communities and thereby		
	promotes financial stability of families and prosperity in		
	communities. By the end of 2012, a total of 62 community		
	childcare systems with 23,066 certified babysitters were		
	established to provide babysitting services for 33,270 infants.		
	The proportion of adult care services for old age people with		
	disabilities has increased from 2.3% in 2008 to 27% in 2012		
	(113,202 people), which is 12 times.		
9.	To build friendly workplaces, the Chinese Taipei Workplace		
	Win-Win Platform was implemented in 2011 to encourage	—	—
	enterprises to institutionalize family-friendly employment		
	policies and practices (FEPP), including balancing work and		
	family practice (e.g. parental leave of absence, family care		
	leave, paternity leave, and family day); flextime and work		
	arrangement diversification; female career development,		
	cultivation and appointment; establishment of breastfeeding		
	rooms and nurseries; and establishment of workplace sexual		
	harassment prevention measures. Also, companies of different		
	industries were invited to share their FEPP experience.		
	Information of examples of FEPP promotion at home and		
	abroad was collected.		
10.	The SME Corporate Social Responsibility Award Ceremony	_	_
	was organized to encourage SMEs to emphasize work		
	environment, green energy, environmental protection, social		
	concern, and customer benefits. Outstanding CSR plans were		
	selected as a role model for other SMEs. By rewarded winners		
	and increasing their media exposures, the achievements in		
	promoting CSR of enterprises are shared with the public and		
	CSR is promoted.		
11.	One female entrepreneur from Chinese Taipei (HTC		_
	Chairperson Cher Wang) has been selected as a member of		
	the ABAC.		

# The development of Individual Action Plan
